

Paradise

Creacion

- Water Proofing
- Water Repellency

- Waterproofed fabric has the pores of the fabrics covered with a continuous surface i.e. the coating being done on the surface, air permeability is non-existent, with no bonding between the fibres and the coated product

We are offering the following products to impart excellent oil & water repellency to all kinds of Fabrics such as cotton, polyester, and cotton/polyester blend.

- **Siltex 30336 OWR**
- **Siltex 30250 OWR-Extra**
